SUMMARY

Detail-oriented and results-driven **Quality Assurance Engineer** with 3.5 years of experience in manual and functional testing, specializing in **E-Commerce/Retail** domains. Proven expertise in enhancing product quality through comprehensive test planning, execution, and defect management using tools like **JIRA** and **Testrail**, . Skilled in **Agile methodologies** and proficient in multiple testing phases including **regression, functional, UI, and NETCODE testing**. Strong leadership abilities, having led teams in high-stakes projects, and consistently delivered stable, high-quality software releases. Looking to leverage my technical skills and testing expertise to contribute to high-impact projects and drive continuous improvement in product quality.

PROFESSIONAL EXPERIENCE

QA Test Engineer,
UBISOFT INDIA Pvt ltd.
05/2021 - PRESENT

- Conducted comprehensive manual and functional testing, ensuring robust quality control throughout product lifecycle over 3.5 years.
- Achieved 100% test coverage by preparing detailed test scenarios and designing 50+ comprehensive test cases, ensuring product quality and defect minimization.
- Developed and maintained over 100+ test plans/cases using X-Ray (JIRA Tool) and Testrail, improving test case efficiency and accuracy by 20%.
- Actively participated in daily standup meetings, communicating task progress effectively and ensuring seamless collaboration across a cross-functional team.
- Executed functional, regression, and retested to reducing defects by 30% through rigorous testing.
- Collaborated in Agile Scrum methodology, contributing to sprint planning and retrospectives, consistently meeting project deadlines and improving sprint velocity by 15%.
- Demonstrated expertise in multiple phases of Black Box Testing, including UI, functional, and regression testing, ensuring the successful delivery of 5+ high-priority projects.
- Streamlined software development and testing processes by optimizing SDLC, STLC, and defect life cycle workflows, contributing to faster issue resolution and shorter release cycles.
- Conducted extensive NETCODE testing to ensure multiplayer stability, identifying and resolving 100+ network-related bugs, which enhanced the user experience by 15%.

PROJECT EXPERIENCE

RIDERS REPUBLIC

05/2021 – 03/2022

- Served as a functional test engineer, ensuring product stability and quality across multiple releases using agile methodologies.
- Identified and tracked 100+ defects using Jira, improving defect resolution rates by collaborating closely with the development team.
- Led a 4-5 member testing team for key features, overseeing successful delivery of high-priority project components.
- Planned and executed end-to-end testing, including exploratory, ad-hoc, and sanity testing, which enhanced product performance by 15%

XDEFIANT

03/2022 – Present

- Played a key role in test planning, requirement analysis, and defect tracking, ensuring the project met critical deadlines.
- Promptly detected and reported critical defects, resulting in the resolution of 30+ high-priority issues through the Jira tool.
- Conducted comprehensive testing, including exploratory, ad-hoc, smoke, sanity, regression, functional, and Netcode testing, which contributed to the release of stable builds.
- Led a 4-5 member testing team, managing test execution and preparing detailed reports that provided stakeholders with insights into product readiness.
- Improved product quality by enhancing test coverage and providing valuable feedback on product functionality and stability.

SKILLS

- **Testing Tools**: Testrail, X-Ray (JIRA Tool), Selenium WebDriver, Flare, Netmancer, Bloomberg, QC Assistant
- **Test Management**: JIRA, Test Case Creation, Test Planning, Defect Tracking
- **Quality Assurance Skills**: Bug Reporting, Root Cause Analysis, Cross-Functional Team Collaboration, Test Strategy Development, Risk Analysis, Quality Control, Release Management
- **Programming Languages**: Java
- **Types of Testing**: Manual Testing, Functional Testing, Regression Testing, UI Testing, Smoke Testing

CERTIFICATION

- Completed Software Testing Certification course from **QSPIDER Institute** (Manual + Automation)

EDUCATION

- Completed **Bachelor of Engineering** in first class from **Savitribai Phule Pune University** in 2019
